## PREPARATION

<b>FACTOID</b>	The Tom Collins dates back more than a century and a half, but its welcoming crispness keeps it fresh always. So established in the libational world, the Tom Collins even has its own eponymous glass (tall, with plenty of room for Ice).
<b>1</b>	Add the Gin, Lemon Juice and Sugar to a Collins glass and stir to dissolve the Sugar (you can instead use Simple Syrup and make the process easier). Fill the glass with large chunks of Ice and top with chilled Club Soda. Insert a straw and do what comes natural.
